

Negating and Asking Questions with Other Verbs

Negating most verbs is very simple. All you have to do is put the word *ne* in front of the verb. For example: *Ne volim taj udžbenik.* (I don't love that textbook.) *On ne čita svaki dan.* (He doesn't read every day.)

When it comes to asking questions, specifically yes/no questions, we've only used the verb *biti*. However, we can use any verb in such questions. For example: *Da li voliš nešto?/Voliš li nešto?* (Do you love something?) *Da li čitate svaki dan?/Čitate li svaki dan?* (Do you (all) read every day?)
